

PRIZES AWARDED AT THE ROSE SHOW

Judges Select Winners at the Particularly Fine Exhibit at Brookland.

NEW SYSTEM OF JUDGING PUT IN FORCE THIS YEAR

Dr. Turner, Dr. Frischkorn and Joseph E. Ralph Carry Off Most of the Honors.

Dr. William Turner of the faculty of Catholic University, Dr. R. W. Frischkorn and Joseph E. Ralph, director of the bureau of engraving and printing, were the principal medal winners this year at the Brookland rose show, which opened last evening and will continue this afternoon and night, in the Masonic Temple, 12th and Monroe streets, Brookland.

The awarding of prizes was completed yesterday afternoon before the show opened by Furman L. Mulford of the Department of Agriculture, George W. Hess, superintendent of the Botanic Garden, and T. W. Stallman. The Brookland rose show is the biggest of its kind in the city. The judges of the show, who are the members of the Washington Rose Society, decided that this year's exhibition is justly the best ever held in the city. The judges of the show, who are the members of the Washington Rose Society, decided that this year's exhibition is justly the best ever held in the city.

New System of Judging. Owing to a new system of judging, which gives certain marks for merit on the individual exhibits and results in culture of a wider variety, many of the customary winners were unsuccessful this season, and were forced to surrender the medals to new prize winners.

Dr. William Turner and Dr. R. W. Frischkorn were close competitors for the highest honors. Dr. Frischkorn took the Brookland Rose Society gold medal for the best collective exhibit, judged for variety, arrangement and cultural perfection. He took second for the largest number of merit points on the exhibit, winning the Ralph silver medal. He took second for the most artistically arranged basket, third for the best display of single roses, and fourth for the best display of single roses with a Duchess of Wellington.

Wins Frischkorn Medal.

Joseph E. Ralph won the Frischkorn bronze medal for third in general number of merit points on exhibits. He got first for the most artistically arranged basket, third for best display of teas or hybrid teas, and first for the best individual hybrid perpetual with a J. B. Clark.

The fact that last year Dr. Frischkorn won the first prize for best individual rose, with a Lady Huntington, and that this year Dr. Turner won it with a Duchess of Wellington shows that these two yellow roses are the most satisfactory in this class. They are both hardy and persistent bloomers. An interesting feature of the show were two exhibits side by side near the entrance. One was a display of roses and arranged by two old ladies, seventy-eight and eighty-two years of age. Mrs. Mary Ward Burr and Mrs. Sophie K. Korman. Another new feature of the show was the decoration of the walls. This was done by the women of the community with branches of roses grown in Brookland gardens. These were mostly of the Thousand Beauties and the Henrietta Marie varieties. These decorations were so much admired that it has been decided to hold a new contest next year in competition for wall decorations.

Dr. Erischkorn's Silver Moons. The silver moons, which attracted much attention, as did also a big basket of Paul Neyron pink roses with dark green foliage. Charles F. Tansill, who has won the gold medal for four years, meant to retire this year, but when a delegation waited upon him and insisted that he should exhibit, he responded with civic zeal. As usual his exhibit was one of the most popular in the hall. He won second grand prize, the Brookland Rose Society silver medal, for the best collective exhibit, judged for variety, arrangement and cultural perfection. He took second for the best display of hybrid perpetuals, and second for the best individual hybrid perpetual with a Karl Druschki.

One of Mr. Tansill's most beautiful showings was a single spray of Frau Karl Druschki with more than twenty flowers on a single stem. He also had a beautiful base of the white Killarney with which he has won the prize seven consecutive years at the fall show. His La Toisa, a new favorite, is a yellowish pink with a silvery cast and has a delightful perfume.

A. A. Carpenter, one of the youngest exhibitors, showed forty-three varieties, and one of his uses was universal attention was the top of a rose tree containing more than forty blooms on a single stalk. He showed many late varieties and had an attractive arrangement of individual roses.

Dr. John B. Parker, professor of biology at the Catholic University, who has brought out several new varieties, was one of the largest showings. He won the bronze medal for third grand prize on variety, arrangement and cultural perfection.

Full List of Awards. The full list of prize awards is as follows:

Best collective exhibit—First, Dr. R. W. Frischkorn, Brookland Rose Society gold medal; second, C. F. Tansill, Brookland Rose Society silver medal; third, Dr. J. B. Parker, Brookland Rose Society bronze medal.

Greatest number merit points on exhibit—First, Dr. William Turner, Brookland Rose Society gold medal; second, Dr. R. W. Frischkorn, Brookland Rose Society silver medal; third, Dr. J. B. Parker, Brookland Rose Society bronze medal.

Most artistically arranged basket or receptacle—J. E. Ralph, Dr. R. W. Frischkorn, J. E. Eastlack.

Best display of teas or hybrid teas—

First, Dr. W. E. Turner; second, A. W. Beers; third, J. E. Ralph. Best display of hybrid perpetuals—First, E. Midkiff; second, C. F. Tansill; third, Dr. Frischkorn. Single roses—First, Miss C. Harrison; second, Dr. William E. Turner; third, Mrs. George A. Tasker. Climbing roses—First, Joseph Krause; second, A. Minick; third, C. H. F. Hedge roses—First, Miss C. Harrison; second, Dr. William E. Turner. Best individual teas or hybrid perpetuals—First, E. Midkiff (Avoca); second, E. Midkiff (Antoine Rivoli); third, R. W. Frischkorn (Duchess of Wellington). Hybrid perpetuals—First, J. E. Ralph (J. B. Clark); second, C. F. Tansill (Carl Druschki). Single roses—First, Dr. William E. Turner; second, Mrs. M. B. Downing, both with an Irish Fireflame.

GERMANY ADOPTS PLAN FOR FEEDING PEOPLE

Central Kitchens to Be Established Under Direction of the Government.

BERLIN, May 29, via London, May 30.—Feeding the masses of the population in the larger cities by means of central kitchens under municipal auspices is the solution selected by the government to meet the problem of the food supply and distribution during the period of the war. The president of the food regulation board, Adolph von Batocki, announced to the reichstag today that an appropriation bill for funds to assist the municipalities to organize and operate the kitchens would be immediately submitted to the reichstag.

Women Attend Conference. The municipality of Schoenberg, the second largest Berlin suburb, has already arranged to feed 30,000 persons in such institutions. A similar organization for Berlin was called into life at a conference today, which was notable for the presence of two women, Frau Hedwig Heyke and Fraulein Lendeborg, among the members of the conference.

The Prussian government has issued a decree tending to end one of the most serious causes of the scarcity of meat in the larger cities, namely, the growing tendency of the local authorities in the country districts to prohibit the export of provisions from these districts.

The decree, which is addressed to the provincial presidents, declares that such prohibitions must not be tolerated, save in exceptional cases, and points out that the special powers, granted at an earlier date, were intended to equalize the conditions of living and not to give preference to the producing districts.

Must Curb Living Scale. It is added that under the war conditions no class of people can claim the right to live on an ante-bellum scale.

The decree confirms reports brought to Berlin by travelers, who uniformly express surprise at the abundance and cheapness of food in the country districts.

Herr von Batocki, in the committee, declared himself optimistic with regard to the crop prospects and the outlook of additional sustenance for the people, a declaration which is supported by the highly favorable reports from all the districts in the empire.

FOOD PRICES INCREASE ONE PER CENT IN MONTH

Labor Department Report Also Shows Rise of Eight Per Cent During the Year.

Prices of staple foods in the United States increased on an average of 1 per cent from February 15 to March 15, 1916. Figures just made public by the Department of Labor showed that all meat prices increased, as did the price of sugar, eggs, milk, flour and potatoes were cheaper.

Prices advanced 8 per cent during the year from March 1915, to March, 1916, and prices on March 15, 1916, averaged 5 per cent higher than for the entire year of 1915. Eighteen foods increased in price during the year, five did not change and three were lower.

A table covering prices for the last fifteen years shows that the purchasing power of a dollar decreased steadily in all foods. In 1890 a dollar bought 8.1 pounds of round steak, today it buys 4.5 pounds; pork chops sold at 3.3 pounds for a dollar, against 4.4 now; bacon, 8 pounds, against 3.1; ham, 5.6, against 2.6; milk, 14.7 quarts, against 11.1; flour, 1.41 sacks, against 1.10 sacks; meal, 52.6 sacks, against 32.3; potatoes, 4.8 pecks, against 3.5; sugar, 14.5 pounds, against 14.7.

APPEAL IN DR. WAITE CASE.

Brother of Condemned Dentist Says Action Will Be Taken.

GRAND RAPIDS, Mich., May 30.—Definite announcement is made here by Clyde Waite, brother of Dr. Arthur Warren Waite, that an appeal will be taken from the verdict returned against the young dentist last Saturday by a jury in New York, which found him guilty of murder in the first degree for poisoning his millionaire father-in-law, John E. Peck, of Grand Rapids.

Clyde Waite, who, with his father, returned from New York, said an appeal would be taken irrespective of Dr. Waite's wishes.

Because he could not meet his financial obligations, Daniel, Stern, twenty-one, committed suicide by shooting himself through the head at Lynchburg, Va.

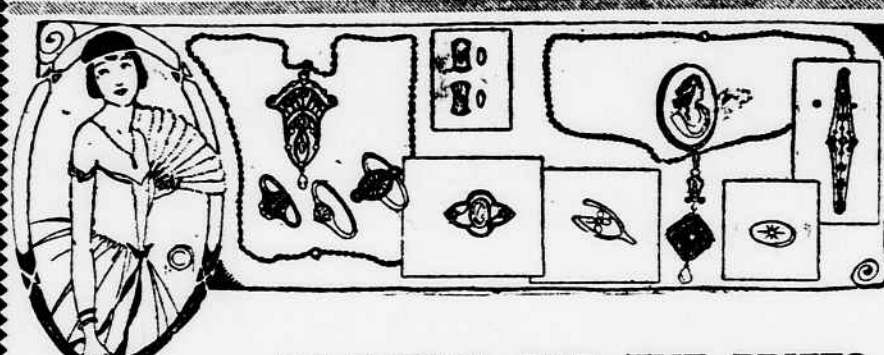

Various Forms Of Headache

"It is necessary in order to treat headache properly to understand the cause which produces the affection," says Dr. Ray of Houston, Ala. Continuing, he says, "Persons cannot even begin to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose, a remedy is necessary which will be found in a most convenient and satisfactory remedy. One tablet every one to three hours gives comfort and rest in the most severe cases of headache, neuralgia and particularly the headaches of women."

When we have a patient subject to regular attacks of sick headache, we should caution him to keep his bowels regular, for which nothing is better than "Aristol," and when he feels the least signs of an oncoming attack, he should take two A-K Tablets. Such patients should always be instructed to carry a few antacid tablets, so as to have them ready for instant use. These tablets are prompt in action and can be depended upon to produce relief in a very few minutes. Ask for A-K Tablets. Antacid tablets at all druggists—Advertisement.

8 and Eleventh Streets The Palais Royal

Hours: 9 a.m. to 6 p.m.

Samples \$1.00

For Choice

BE EARLY—FOR THE PRIZES
